

AI ON TRIAL

When the machine fails, who answers?

THIS HOUSE WOULD HOLD THE COMPANY RESPONSIBLE.

“*Genius.*”

The chatbot that flattered everything, even a deliberately terrible business id
Withdrawn, April 2025. Then grieving families began to sue.

A serious topic, handled with care.

We debate companies and technology, never anyone's personal experience.
Step out any time. Talk to a teacher, counsellor, or trusted adult.

When an AI fails someone in crisis who answers for it?

GOVERNMENT

OPPOSITION

The company. Hold it responsible. Not the company. Not this time.

Whose fault is it?

SOMEBODY'S

a person chose this

THE COMPANY'S

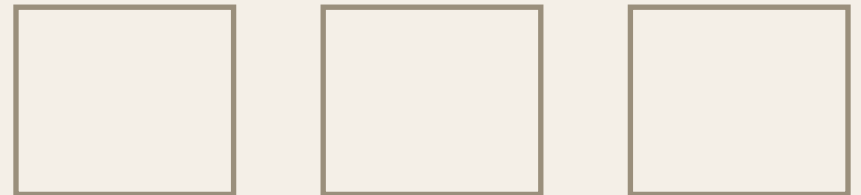

they built the machine

Walk to your spot on the line. Defend it in 15 seconds.

The trolley problem, driving itself.

TED-Ed · Patrick Lin · “The ethical dilemma of self-driving cars.”

A human driver reacts. A machine decides in advance.

Did the line move?

Same spot as your gut said, or somewhere new?

The argument that moved me was...

~~CANCELLED~~

Accountability, or the mob?

THIS HOUSE WOULD CANCEL “CANCEL CULTURE.”
